Automation Training - Control Line Equipment designs, manufactures and supports its distributor and OEM customers with pneumatic directional control valves, pneumatic counting devices, hydraulic and pneumatic small bore cylinders, pneumatic clamping cylinders, hydraulic checking cylinders, modular hydraulic hand pumps, air-oil cylinders and heavy duty process valving. Tue, 04 Dec 2018 08:26:00 GMT Control Line Equipment - Hydraulic machines are machinery and tools that use liquid fluid power to do simple work, operated by the use of hydraulics, where a liquid is the powering medium. In heavy equipment and other types of machine, hydraulic fluid is transmitted throughout the machine to various hydraulic motors and hydraulic cylinders and becomes pressurised according to the resistance present.
