

machine learning for financial engineering

Thu, 26 Mar 2015 16:00:00 GMT machine learning for financial engineering pdf - Machine learning (ML) is the scientific study of algorithms and statistical models that computer systems use to progressively improve their performance on a specific task. Machine learning algorithms build a mathematical model of sample data, known as "training data", in order to make predictions or decisions without being explicitly programmed to perform the task. Tue, 15 Jan 2019 04:44:00 GMT Machine learning - Wikipedia - Machine learning is the science of getting computers to act without being explicitly programmed. In the past decade, machine learning has given us self-driving cars, practical speech recognition, effective web search, and a vastly improved understanding of the human genome.
